

MARCH PRAYER GUIDE

The same voice that spoke the universe into existence, calmed the raging storm, and raised Lazarus from the dead, still speaks today. There is power in his voice. Is his voice the loudest voice we hear?

Henri Nouwen writes, "Every time we listen with great attentiveness to the voice that calls us the Beloved, we discover within ourselves a desire to

hear that voice longer and more deeply."

As we come before the Lord in prayer, may we quiet ourselves, learning to hear his voice above all others and respond in obedience.

Thank you for praying. Our Praises and Thanksgivings reflect the power of prayer.
